Fixed Price List 37C

It's been over a year since our last Fixed Price List went out in the mail, although we had an Internet only list our last fall. We have our excuses, including 2 1/2 feet of snow in late April, which left us without electricity for 2 days but hopefully it will not be that long between lists again. This list represents only a small portion of our inventory and includes many new purchases as well as some "old friends". On many of these we've reduced prices drastically. Lots of other coins should have been listed here but we needed to get this list out as some of you no doubt thought that we had dropped off the face of the earth. In addition we have hundreds of books, banknotes and "traditional" money items that need to be listed. We most likely will be sending out specialized lists of these in the coming months as well as listing them on our website. These lists will be sent to those who request them only.

An asterisk * indicates that a photo of this item is on our website or will be shortly. If you can't find the image please email us and we will either give you instructions on how to view the item or we will send you the image directly. We can provide images for most items on this list. It is becoming more and more difficult (as well as expensive) to provide "real" photographs of coins. After many years we've raised our shipping charges both in anticipation of the USPS rate change in May as well as the increase in mailers, envelopes and other shipping supplies. In most cases we are still not breaking even on postage.

The best time to reach a real person (either Rita or Bill) is between 9 AM to 6 PM Monday through Friday. However in many

cases we can also be reached before or after those times or on the weekend. In any event if we are not in please leave a short, but clear, message and we will return your call. We are now using a completely new numbering system to make it easier for us to “find” pictures when putting the list on the internet.

Space does not permit us to list books on this list. However there is one new book that has just been published and we highly recommend it. Written by Ray and Steve Feller it is **Silent Witnesses: Civilian Camp Money of World War II**. A brand new 168 page book with 775 full-color illustrations which is destined to become the “Bible” of money used in Concentration Camps, Ghettos, Internment Camps & DP Camps. \$35 (plus \$5 domestic shipping).

As many of you know the ANA will hold elections this spring and summer for a new Board of Governors. We usually don't get involved in numismatic politics but this year is an exception. We believe that a completely new Board is needed to restore some sanity and leadership both within the Board of Governors itself and to the leadership at the headquarters itself. Therefore we will not vote for anybody associated with the current board (even though some are our friends). Some of the people who we think deserve to be on the Board are: Ed Rochette, Walt Ostromecki, Joe Boling, Chet Krause, Cliff Mishler, Radford Stearns and Wendell Wolke. We will not be voting for any candidate running unopposed.
