As usual this is late, and much later than usual. For those who are interested we are now using Excel, rather than Microsoft Word to list most of the items in the list. Our webmaster has told us that this will be easier on him. Hopefully it will be easier on us in the future. We have finished writing the list in March so it still may be up on our website and in the mail by the end of the month. But if so, not by too many days. **As many of you know we are now publishing a web only list which is appearing about once a month. If you would like to be notified of all new lists, send us your email address and we will notify you when it is available.** You can also check our website or if you send us a (or a number of them) stamped self-addressed #10 envelope we will send you a list. Otherwise the only printed lists we will send out, is this one and our annual twice yearly auctions.

PHOTOS: As you can see, there are no photos on the printed copy of this list. It is no longer feasible either in an economic or time sense for us to have photos on printed copies of our list. However numerous items are photographed on our website. Eventually all commemorative coins, bank notes and state medals will be pictured on our website. **In addition we can provide color images via email of most items listed at \$25 or more.** In the miscellaneous section a number of items have an asterisk preceding the number. That means that an image is on our website. Just click on the word "image" at the end of the description and a photo will appear in a new window on your browser. Or it should.

ORDERING: Ordering information is on the back of the order blank or online. If you need any more information, please do not hesitate to ask. Our advertised phone hours are 9 AM to 6 PM during the week, although we are usually here earlier and later and sometimes on the weekends as well. You may call, Fax or E-Mail us 24 hours a day and we go to our Post Office virtually every day. **Orders with payment receive preference.** If calling and we do not answer, **please leave a message.** Please speak slowly and distinctly when leaving a message. If we can't understand the message after 2 times we will erase it. We offer the option of Layaway Plans that make purchasing what you want a little easier. We usually ask for 1/3 down, 1/3 due in 30 days and the final 1/3 due within 60 days. However we try to work with your needs as well. Please note that when we are writing our auction catalog you may get our voicemail. Please try our landline at 720-981-0785 first as it is much more reliable than our cell phone at our office.

AUCTIONS: We usually hold two auction sales each year one in the spring (this year June 13th), the other in the Fall consisting of ancient to modern world wide material, with heavy emphasis on Israel/Palestine/Judaica. We will begin writing our spring catalog as this list goes in the mail. Actually the first thing we are going to do is clean the office. My office is usually messy but when writing a list it gets even worse. Sometimes I can't even find the telephone when it's ringing because it's buried under papers, books, trays and "stuff". We have numerous fine collections consigned for our spring sale and we're looking forward to writing the catalog.

ABOUT THIS LIST: This list is a general stock list and replaces any and all lists that you may have in your possession. It will be active until our next Israel list in the late winter of 2012. We have not listed any Israeli gold coins on this list. However we can provide competitive quotes on most every Israel gold coin. However a number of gold medals are listed in this catalog. As this list goes to press, gold is about \$1420 per troy ounce and silver about \$37. However these prices are very volatile and no doubt will be different by the time you get this list. Our inventory changes almost daily. Please let us know what you are looking for and we will do our best to find it for you. There are numerous items that we are listing for the first time as well as others that we haven't seen in years. **SILVER AND GOLD PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE.**

ANCIENTS: We have a large stock of ancient coins with our speciality being Jewish and Jewish related coins. We list many in our monthly weblist. In addition others are listed on our vcoin store at (<http://www.vcoins.com/ancient/rosenblumcoins/store/dynamicIndex.asp>) Still others are sitting in a box waiting for us to work them up. Or if you would rather send us your want list and we'll see if we can help you. The same can be said with regard to world coins. And others will be in one of our auctions.

WEBSITE: Our website is a place to see new purchases and internet specials. If we have your email address, and have it in our email address book (not always one and the same) we have notified you in the past and will continue to notify you in the future of all new catalogs. If you did not receive an email notification about this list, we do not have your current email address. If we have your email address we can notify you of future lists. **A new web list should be up on our site about the same time as this list**

WANT LISTS: We work hard to service serious want lists. If there are **any** numismatic items you are looking for please let us know and we will try to find it for you. Please include as much information about the items as you can including condition desired and your budget. In addition if there are items that we list that are too expensive for your taste please let us know what you will pay. Perhaps we can find sometime in that price range for you. There is never an obligation to you when you submit your want list.

PAYMENT: If you order something we expect to be paid in a timely manner. We also offer a convenient layaway plan with no additional charges. Those who order without paying or who are consistently late in paying will be taken off our list. And please keep in mind that there are a number of "black lists" circulated by dealers for those who have the reputation of not paying promptly.

Dedicated to the memory of two friends who passed much too soon in the past year: Jeff Young and Steve Tanenbaum

The Standard Catalog of World Coins (KM) has improved the listing of Israel mint sets in the latest editions of the 20th and 21st Century catalogs and we have tried to use those numbers when possible. They still have mistakes, omissions and additions of sets that don't exist. Researcher Mel Kassonof of West Orange NJ (our home town!) has prodded and pushed our friends at Iola. Eventually they will get it right.
